STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total leaf tobacco stocks smaller than a year ago

Leaf tobacco inventories of dealers and manufacturers in the United States and Puerto Rico totaled 5,104 million pounds as of July 1, 1966. This is 127 million pounds less than the figure a year earlier (5,231 million). Stocks of flue-cured and burley were down 4.6 percent and 1.3 percent respectively. Stocks of fire-cured, dark air-cured, and imported cigar leaf were also lower. Inventories of Maryland tobacco were higher than a year ago and stocks of foreign grown cigarette and smoking tobacco were at an all time high. About 42 million pounds, consisting mostly of Maryland and Puerto Rican tobaccos, was marketed by growers during the April-June quarter.

Stocks as of July 1, 1966, included 1,189.4 million pounds (farm sales weight) of leaf tobacco under Government loans--a decline of 135 million pounds from the previous July 1 (1,324 million). The decline was primarily due to smaller holdings of flue-cured, burley, and fire-cured as Maryland and cigar leaf stocks increased. These loan stocks were divided as follows: Flue-cured, 836.4 million pounds; burley, 270.9 million; Maryland, 22.3 million; fire-cured, 32.1 million; dark air-cured, 20.2 million; and cigar leaf, 7.5 million.

---

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See tables in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

## CIGARETTE-LEAF STOCKS

Flue-cured and burley stocks smaller;  
Maryland higher; Oriental at record level

Stocks of flue-cured tobacco as of July 1, 1966 totaled 2,439 million pounds--116 million smaller than holdings reported on July 1 last year (2,555 million). The marketing year for flue-cured is on a July-June basis, and total disappearance (exports plus domestic disappearance) during the year just ended was 1,176 million pounds (1,219 million for the previous year), based on July stocks. Indicated domestic consumption of 754 million pounds was 21 million below the previous year (775 million). The export volume of 422 million pounds was 22 million below last year (444 million).

Burley tobacco stocks this July 1 were reported as 1,563 million pounds--21 million less than the holdings on July 1, 1965 (1,584 million).

Inventories of Maryland tobacco on July 1, 1966 totaled 108.2 million pounds--4.6 million more than was reported last July 1 (103.6 million). Marketing of the 1965 crop of Maryland began on April 12, 1966, and deliveries through June 30 totaled 36.4 million pounds--slightly below the corresponding period of the previous season (37.2 million).

Foreign-grown cigarette and smoking tobacco stocks (Turkish and others) were reported at 365.0 million pounds on July 1, 1966. This was about 48.1 million more than was on hand a year earlier (316.9 million) and the largest amount on record.

## DARK TOBACCO STOCKS

Fired-cured and dark air-cured inventories below those reported a year ago.

Stocks of fire-cured leaf, reported at 125.2 million pounds on July 1, 1966, were 8.5 million lower than holdings on the previous July 1. The Virginia type showed a small increase while the Kentucky-Tennessee types were both lower. Fire-cured stocks on this July 1 were as follows: Virginia, 19.1 million pounds; Eastern District Kentucky and Tennessee, 82.1 million; and Western District, 24.0 million.

Dark air-cured holdings of 70.9 million pounds were only 0.7 million below the July 1 inventories last year (71.6 million pounds). Inventories of dark air-cured on July 1, 1966, by types were as follows: One Sucker, 42.3 million pounds; Green River, 23.8 million; and Virginia sun-cured, 4.8 million.

## CIGAR LEAF STOCKS

### Domestic and foreign-grown cigar leaf both show declines

Inventories of all domestic-grown cigar tobacco, including Puerto Rican, totaled 313.1 million pounds on July 1, 1966. This was 16.1 million pounds less than the holdings of last July 1 (329.2 million). Deliveries of the 1965-66 crop of Puerto Rican tobacco were completed during the quarter. Stocks of foreign-grown cigar leaf on hand as of July 1 totaled 113.7 million pounds (farm-sales weight)--18.3 million less than holdings a year earlier (132.0 million pounds).

Holdings of the cigar-filler types as of July 1, 1966 totaled 213.9 million pounds--down 18.5 million from the previous July 1 (232.4 million). Stocks of all filler types were lower. Inventories of cigar-filler stocks by types on this July 1 were as follows: Pennsylvania Seedleaf, 136.6 million pounds; Ohio filler, 17.7 million; and Puerto Rican, 59.6 million.

Cigar-binder stocks totaled 74.8 million pounds on July 1, 1966--a decline of only 0.5 million pounds from the same date last year (75.3 million). Stocks of Northern Wisconsin were higher but all other types were a little lower than last year. Connecticut Broadleaf stocks this July 1 were 14.7 million pounds; Connecticut Valley Havana Seed, 5.9 million; Southern Wisconsin, 24.1 million; and Northern Wisconsin, 30.1 million.

Shade-grown cigar wrapper stocks as of July 1, 1966, totaled 24.5 million pounds, consisting of 16.3 million pounds of Connecticut Valley Shade and 8.2 million of Georgia-Florida Shade. Both types showed an increase from last July. The marketing year for cigar-wrapper is on a July-June basis, and total disappearance during the year just ended was 20.0 million pounds (21.7 million during the previous marketing year), based on July 1 stocks. Exports, at 5.1 million pounds, were 0.8 million pounds higher than last year, while domestic consumption was down 2.5 million pounds to 14.9 million.

Stocks of Cuban (Havana) leaf, reported at 6.8 million pounds (farm-sales weight) were down 5.1 million from a year ago (11.9 million). Philippine Islands (Manila) stocks at 45.3 million pounds were up 3.6 million from last July (41.7 million). Stocks of Indonesian leaf were 6.0 million pounds; Brazilian, 14.0 million; Columbian, 13.8 million; Dominican Republic, 12.3 million; Paraguay, 4.1 million; and other foreign-grown, 11.4 million.

## TOBACCO SHEET

### Leaf represented in stocks of tobacco sheet shows increase

Stocks of leaf represented in inventories of "tobacco sheet" totaled 14.6 million pounds (reporting weight) compared with 9.6 million on the previous July 1. Of the total this July 1, 11.7 million pounds were for use in cigarettes and smoking tobacco, and 2.9 million for cigar binder, including a very small quantity for wrappers (see table 5).

1/ Types 11-37 are reported on the basis of packed weight.

2/ Farm-sales-weight equivalent based on unstemmed sweated weight factor.

3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

1/ Annual disappearance for a type is calculated for the marketing year established for that type, the year beginning on the quarterly reporting date on which stocks of the type are at their lowest point and before the new crop enters stocks.

2/ The carryover stocks have been tabulated separately according to broad groupings of ownership, namely manufacturers, under loan, and all other. "Other" reflects stocks reported by tobacco dealers and stocks held in the United States by representatives of foreign manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export.

3/ Subject to revision.

4/ August 1 estimate, U. S. Crop Reporting Board, SRS.

1/ Represents leaf tobacco in stocks of reconstituted or processed tobacco sheet. 2/ Subject to revision.

3/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.

4/ Includes Puerto Rican on the Island, Type 46. 5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

\* Revisions.

1/ Total includes stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers represents domestic manufacturers only. All Government loan stocks are included as dealers holdings.

4/ Includes stocks on the Island of Puerto Rico.

5/ For explanation of stocks included in this classification see footnote 5 on page 12.
